The College Process

While Grade 11 is a key year in the college search process, we help upper school students stay on track during each phase of their journey.

GRADE 9: Who Am I? - Discover

Grade 9 is a year of discovery. The College Office staff will encourage students to try new courses, activities, and co-curricular offerings in the supportive and encouraging environment of the School. In the spring, parents and students are invited to attend the “Mapping out your Summer” event.

GRADE 10: Where Am I Going? - Explore

The sophomore year is a time to explore. Students will meet with College Office staff to prepare for the October PSAT. If a student hopes to be a college athlete, the student should arrange an individual meeting with the Athletic Liaison during the fall of sophomore year. Students are introduced to SCOIR, the platform we use to manage the college process. Students and parents are invited to attend the “Sophomore Seminar.”

GRADE 11: What Do I Want? - Take Action

During the junior year, the college process truly begins. From attending college fairs, to taking the PSAT and mapping out a testing timeline, to creating a list of colleges to explore, students are immersed in their college journey. They are assigned to a college counselor with whom they meet regularly throughout the year to guide them along the way. Juniors and their parents attend the College Kickoff Event.

GRADE 12: Who Will I Become? - Celebrate

In the senior year, we celebrate all that our students have accomplished. Students attend the end of summer College Counseling Retreat, finalize their college lists and submit their applications. Parents are invited to attend a meeting early in the fall to map out the timeline of the process for the remainder of the year.
